

LED Canopy Lighting

The **Brighter** Look that **Lasts**

Introducing technologically advanced LED upgrades by Qnuru for all existing canopy light fixtures. Keep your housing, discard the traditional energy-sucking bulb and ballast, and save 60% to 85% with our revolutionizing Vector Sustainab**LED**esign product line.

Features and Benefits

- Eliminate the need for a full-scale replacement project, which can be an expensive and time consuming process for canopy lights.
- Decrease energy consumption, lengthen the light bulb's lifetime, improve robustness, and have more directional controllability.
- Increase green business practices with Qnuru's Universal Lighting Control Processor (ULC), which allows for a seamless transition from grid to solar power sources as well as dimming, timing, and motion detection capabilities.
- Increase both visibility and security where these lights are used including gas stations, doorways, and parking garages.

VECTOR

Pick Your Vector Light Bulb

To select the best light bulb for your building's or structure's lighting needs, determine its existing wattage, size of the light housing and desired lumen output. The modular design and Universal Mounting Plate of Vector products also allow customers to fit almost any bulb into a fixture.
